Dear Loree Duen ,

由於準備運輸署和環境保護署所提出的問題所需要的相關資料，我公司申請將案件審批期限延長兩個月，用於準備所需要的相關資料及等待相關政府部門回復。

謝謝！

伊諾威斯科技發展有限公司

Subject: Planning Application No. A/YL-KTN/714_Departmental Comments

Dear Miss Fong,

I refer to the captioned planning application.

Please find below departmental comments:

Transport Department (Contact person: Mr. Wilson Lee; Tel.: _____

(a) The applicant should clarify if vehicular traffic would be generated by the proposed used considering the maintenance.

(b) The applicant should indicate the clear width of the site ingress/ egress on the layout plan.

(c) The applicant should note the local access between Kam Tai Road and the site is not managed by his department.

Environmental Protection Department (Contact person: Mr. Billy Ma; Tel.: _____

From the application form, he notes that (i) the applicant seeks planning permission to use the application site for Proposed Public Utility Installation (Solar Energy and Wind Power Generation System); (ii) The installation will be connected to the CLP grid under the "Renewable Energy Feed-in Tariff" (FiT) Scheme; and (iii) The installation also involves 2 x windmill power generators with 26m high which will be operated 24 hours a day. Nevertheless, there is insufficient information provided in the application form.

Grateful if you could ask **the applicant** to advise:

- details of the system operation: how much renewable energy to be generated by the solar panel and wind turbine?
- any information / specification about the proposed wind turbine, e.g. noise level to be generated during operation.
- any proposed facilities to be provided for proper collection, treatment and disposal of waste / wastewater generated on site.

Regards,
Loree Duen
