Rejected Application for hobby farm

	<u>Application No.</u>	<u>Proposed Use</u>	<u>Date of Consideration (RNTPC/TPB)</u>	<u>Rejection Reason (s)</u>
1	A/YL-KTN/394	Proposed temporary field study/education centre and hobby farm for 5 years	14.6.2013 [on review]	(1), (2), (3)

Rejection Reasons

- (1) The site was the subject of unauthorized land filling. The filling materials on-site comprising sand, stones, debris and construction waste were not suitable for cultivation. There was no detailed information provided regarding the design and operation of the proposed development particularly the hobby farm, field study/education centre and the office with porch
- (2) The applicant failed to demonstrate that the development would not generate adverse landscape and drainage impacts on the surrounding areas
- (3) Approving the application would set an undesirable precedent for similar applications within the "AGR" zone, and the cumulative effect of which would result in a general degradation of the rural environment of the area

Approved Applications for land filling (other than those for hobby farm)

Advisory Clauses

- (a) note DLO/YL, LandsD's comments that the Site comprises Old Schedule Agricultural Lots held under the Block Government Lease which contains the restriction that no structures are allowed to be erected without the prior approval of the Government. The lots owners will need to apply to his office to permit the structures to be erected or regularize any irregularities on site, if any. Besides, given the proposed use is temporary in nature, only application for regularization or erection of temporary structure(s) will be considered. Applications for any of the above will be considered by LandsD acting in the capacity as the landlord or lessor at its sole discretion and there is no guarantee that such application will be approved. If such application(s) is approved, it will be subject to such terms and conditions, including among others the payment of rent or fee, as may be imposed by the LandsD;
- (b) note C for T's comments that the Site is connected to the public road network via a section of a local access road which is not managed by TD. The land status of the local access road should be checked with the LandsD. Moreover, the management and maintenance responsibilities of the local access road should be clarified with the relevant lands and maintenance authorities accordingly;
- (c) note CHE/NTW, HyD's comments that HyD shall not be responsible for the maintenance of any access connecting the Site and Castle Peak Road – Tam Mi. Adequate drainage measures should be provided to prevent surface water running from the Site to nearby public roads and drains;
- (d) note DEP's comments that the applicant should follow the relevant mitigation measures and requirements in the latest "Code of Practice on Handling the Environmental Aspects of Temporary Uses and Open Storage Sites" to minimize any potential environmental nuisance. Adequate supporting infrastructure/facilities should be provided for proper collection, treatment and disposal of waste/wastewater generated from the proposed use. If septic tank and soakaway system will be used in case of unavailability of public sewer, its design and construction shall follow the requirements of EPD's Practice Note for Professional Person (ProPECC) PN 5/93 "Drainage Plans subject to Comment by the Environmental Protection Department" including percolation test. It is the obligation of the application to meet the statutory requirements under relevant pollution control ordinances;
- (e) note CTP/UD&L, PlanD's comments that the applicant is reminded that approval of the planning application under Town Planning Ordinance does not imply approval of tree preservation/ removal scheme under the Lease. The applicant should seek comments and approval from the relevant authority on the proposed tree works and compensatory planting proposal, where appropriate;
- (f) note D of FS's comments that in consideration of the design/nature of the proposal, FSIs are anticipated to be required. Therefore, the applicant is advised to submit relevant layout plans incorporated with the proposed FSIs to his department for

approval. The layout plans should be drawn to scale and depicted with dimensions and nature of occupancy. The location of where the proposed FSI to be installed should be clearly marked on the layout plans. If the proposed structure(s) is required to comply with the Buildings Ordinance (BO) (Cap. 123), detailed fire service requirements will be formulated upon receipt of formal submission of general building plans; and

- (g) note CBS/NTW, BD's comments that if the existing structures (not being a New Territories Exempted House) are erected on leased land without the approval of BA, they are unauthorized building works (UBW) under the BO and should not be designated for any proposed use under the application. For UBW erected on leased land, enforcement action may be taken by BD to effect their removal in accordance with the prevailing enforcement policy against UBW as and when necessary. The granting of any planning approval should not be construed as an acceptance of any existing building works or UBW on the Site under the BO. Before any new building works (including containers/ open sheds as temporary buildings, demolition and land filling, etc.) are to be carried out on the Site, prior approval and consent of the BA should be obtained, otherwise they are UBW. An Authorized Person should be appointed as the co-ordinator for the proposed building works in accordance with the BO. The Site shall be provided with means of obtaining access thereto from a street and emergency vehicular access in accordance with Regulations 5 and 41D of the Building (Planning) Regulations (B(P)R) respectively. The Site does not abut on a specified street of not less than 4.5 m wide and its permitted development intensity shall be determined under Regulation 19(3) of the B(P)R at the building plan submission stage. Any temporary shelters or converted containers for office, storage, washroom or other uses are considered temporary buildings are subject to the control of Part VII of B(P)R. Detailed checking under the BO will be carried out at building plan submission stage.
