

**Relevant Interim Criteria for Consideration of  
Application for NTEH/Small House in New Territories**  
**(promulgated on 7.9.2007)**

- (a) sympathetic consideration may be given if not less than 50% of the proposed NTEH/Small House footprint falls within the village 'environs' ('VE') of a recognized village and there is a general shortage of land in meeting the demand for Small House development in the "Village Type Development" ("V") zone of the village;
- (b) if more than 50% of the proposed NTEH/Small House footprint is located outside the 'VE', favourable consideration could be given if not less than 50% of the proposed NTEH/Small House footprint falls within the "V" zone, provided that there is a general shortage of land in meeting the demand for Small House development in the "V" zone and the other criteria can be satisfied;
- (c) development of NTEH/Small House with more than 50% of the footprint outside both the 'VE' and the "V" zone would normally not be approved unless under very exceptional circumstances (e.g. the application site has a building status under the lease, or approving the application could help achieve certain planning objectives such as phasing out of obnoxious but legal existing uses);
- (d) application for NTEH/Small House with previous planning permission lapsed will be considered on its own merits. In general, proposed development which is not in line with the criteria would normally not be allowed. However, sympathetic consideration may be given if there are specific circumstances to justify the cases, such as the site is an infill site among existing NTEHs/Small Houses, the processing of the Small House grant is already at an advance stage;
- (e) if an application site involves more than one NTEH/Small House, application of the above criteria would be on individual NTEH/Small House basis;
- (f) the proposed development should not frustrate the planning intention of the particular zone in which the application site is located;
- (g) the proposed development should be compatible in terms of land use, scale, design and layout, with the surrounding area/development;
- (h) the proposed development should not encroach onto the planned road network and should not cause adverse traffic, environmental, landscape, drainage, sewerage and geotechnical impacts on the surrounding areas. Any such potential impacts should be mitigated to the satisfaction of relevant Government departments;
- (i) the proposed development, if located within water gathering grounds, should be able to be connected to existing or planned sewerage system in the area except under very special circumstances (e.g. the application site has a building status under the lease or the applicant can demonstrate that the water quality within water gathering grounds will not be affected by the proposed development\*);

- (j) the provision of fire service installations and emergency vehicular access, if required, should be appropriate with the scale of the development and in compliance with relevant standards; and
- (k) all other statutory or non-statutory requirements of relevant Government departments must be met. Depending on the specific land use zoning of the application site, other Town Planning Board guidelines should be observed, as appropriate.

\*i.e. the applicant can demonstrate that effluent discharge from the proposed development will be in compliance with the effluent standards as stipulated in the Water Pollution Control Ordinance Technical Memorandum.

**Previous S.16 Applications**

**Approved Application**

<b>Application No.</b>	<b>Uses/Developments</b>	<b>Date of Consideration</b>	<b>Approval Conditions</b>
A/NE-LYT/434	Proposed Eight Houses (New Territories Exempted Houses (NTEHs) - Small Houses)	14.1.2011	A1 - A4

**Approval Conditions**

- A1 The submission of Drainage Impact Assessment and implementation of flood mitigation measures and stormwater drainage facilities identified therein
- A2 The provision of firefighting access, water supplies for fire fighting and fire service installations
- A3 The submission and implementation of tree preservation and landscape proposals
- A4 The commencement clause

**Rejected Applications**

<b>Application No.</b>	<b>Uses/Developments</b>	<b>Date of Consideration</b>	<b>Rejection Reasons</b>
A/NE-LYT/167	Temporary Trailer Park with Ancillary Structures for a period of 12 months	19.3.1999	R1 - R4
A/NE-LYT/384	Proposed Temporary Public Vehicle Park for Private Cars for a Period of 2 Years	17.4.2009	R4 - R7

**Rejection Reasons**

- R1 The proposed trailer park was not in line with the planning intention of the "Agriculture" zone which was to safeguard agricultural land for agricultural purposes. It was also intended to retain fallow arable land with good potential for rehabilitation and to encourage the re-cultivation of good arable land. There were no strong justifications in the submission for a departure from such planning intention, even on a temporary basis.
- R2 The proposed trailer park was incompatible with the surrounding land-uses which were predominantly rural in character intermixed with domestic structures.
- R3 There was no detailed information in the submission to demonstrate that the proposed trailer park would not have adverse drainage impacts on the surrounding areas.

- R4 The approval of the application would set an undesirable precedent for other similar applications. The cumulative effect of approving such similar applications would result in a general degradation of the environment of the area.
- R5 The application site fell within an area zoned "Agriculture" ("AGR") on the approved Outline Zoning Plan. The proposed development was not in line with the planning intention of the "AGR" zone for the area which was to retain and safeguard good quality agricultural land/farm/fish ponds for agricultural purposes. It was also intended to retain fallow arable land with good potential for rehabilitation and other agricultural purposes. No strong justifications had been provided in the submission for a departure from the planning intention even on a temporary basis.
- R6 There was insufficient information in the submission that the proposed development would not cause adverse traffic impact on the surrounding areas.
- R7 The approval of the application would set an undesirable precedent for other similar applications. The cumulative impact of approving such similar applications would result in a general degradation of the area.

**Similar S.16 Applications for Proposed House (NTEH – Small House)  
within/partly within the "Agriculture" zone in the vicinity of the Sites in the  
Lung Yeuk Tau and Kwan Tei South Area**

<sup>\$2</sup>: The site of application no. A/NE-LYT/417 involves part of the site of approved application no. A/NE-LYT/583

@: A/NE-LYT/432 and A/NE-LYT/446 are the same site

**Rejection Reasons**

- R1 The proposed Small House development did not comply with the interim criteria for assessing planning application for New Territories Exempted House/Small House development as the application site was outside both the village ‘environs’ and “Village Type Development” zone of surrounding villages.
- R2 The use under application was not in line with the planning intention of the “Agriculture” zone which was primarily to retain and safeguard good quality agricultural land/farm/fish ponds for agricultural purposes and to retain fallow arable land with good potential for rehabilitation and to encourage the re-cultivation of good arable land.
- R3 The approval of the application would set an undesirable precedent for other similar applications.
- R4 The application did not comply with the “Interim Criteria for Consideration of Application for New Territories Exempted House (NTEH) / Small House in New Territories” as 99.6% of the footprint of the proposed Small House fell outside the village ‘environs’ (‘VE’) of the Kan Tau Tsuen and there was no shortage of land in meeting the demand for Small House development in the “Village Type Development” zone of the village.
- R5 Small House should be developed within the “Village Type Development” zone so as to ensure an orderly development pattern, efficient use of land and provision of infrastructure and services.
- R6 Approval of the application which did not comply with the “Interim Criteria for Consideration of Application for New Territories Exempted House (NTEH) / Small House in New Territories” might set an undesirable precedent for other similar applications in the “AGR” zone. The cumulative effect of approving such similar applications would result in a general degradation of the environment or cause adverse landscape impacts on the area.

- R7 The application did not comply with the "Interim Criteria for Consideration of Application for NTEH/Small House in the New Territories" (Interim Criteria) as the footprint of the proposed Small House fell entirely outside the village environs and/or "V" zone of Kan Tau Tsuen and/or would partially block an existing road.
- R8 The application was not in line with the planning intention of "Agriculture" ("AGR") zone which was primarily for retaining and safeguarding good quality agricultural land/farm/fish ponds for agricultural purposes. It was also intended to retain fallow arable land with good potential for rehabilitation for cultivation and other agricultural purposes.
- R9 The proposed development was not in line with the planning intention of the "Agriculture" zone in the Lung Yeuk Tau and Kwan Tei South area which was primarily to retain and safeguard good quality agricultural land/farm/fish ponds for agricultural purposes and to retain fallow arable land with good potential for rehabilitation for cultivation and other agricultural purposes. There was no strong planning justification in the submission for a departure from the planning intention.
- R10 The proposed development did not comply with the Interim Criteria for Consideration of Application for New Territories Exempted House/Small House in New Territories in that more than 50% of the footprint of the proposed Small House falls outside the village 'environs' and "Village Type Development" ("V") zone of Kan Tau Tsuen.
- R11 Land was still available within the "V" zone of Kan Tau Tsuen which was primarily intended for Small House development. It was considered more appropriate to concentrate the proposed Small House development close to the existing village cluster for more orderly development pattern, efficient use of land and provision of infrastructure and services.

## **Detailed Comments from Relevant Government Departments**

### **1. Land Administration**

Comments of the District Lands Officer/North, Lands Department (DLO/N, LandsD):

- (a) the Sites fall entirely within the 'VE' of the Kan Tau Tsuen;
- (b) the applicants under applications No. A/NE-LYT/700 and 701 are indigenous villagers of Fanling Village of Fanling Heung while the applicant under application No. A/NE-LYT/702 is an ingenious villager of Hok Tau Wai of Fanling Heung. The three Small House applications were approved in-principle in January 2017 and are pending to execute;
- (c) as for the other five Small House applications under previously approved planning application (No. A/NE-LYT/434) for eight Small Houses, four of them were executed in 2017. The remaining one Small House grant application was approved and is pending to be executed;
- (d) the Sites are not covered by any Modification of Tenancy/Building Licence. Execution of the Building Licence in respect of the lots is not yet completed;
- (e) the number of outstanding Small House applications and the number of 10-year Small House demand forecast for Kan Tau Tsuen (2016 to 2025) are 66 and 96 respectively. The figures of the 10-year Small House demand forecast were provided by the relevant Indigenous Inhabitant Representatives without any supporting evidence and his office is not in a position to verify the forecasts; and
- (f) the three Small House applications were made to his office on 31.1.2011.

### **2. Traffic**

Comments of the Commissioner for Transport (C for T):

- (a) She has reservation on the applications. Such type of development should be confined within the "V" zone as far as possible. Although additional traffic generated by the proposed developments is not expected to be significant, such type of development outside the "V" zone, if permitted, will set undesirable precedent cases for similar applications in the future. The resulting cumulative adverse traffic impact could be substantial; and
- (b) notwithstanding the above, the applications only involve construction of three Small Houses. She considers that the applications can be tolerated unless it is rejected on other grounds.

### **3. Environment**

Comments of the Director of Environmental Protection (DEP):

- (a) in view of the small scale of the proposed developments, the applications alone are unlikely to cause major pollution; and
- (b) the septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the

requirements of the ProPECC PN 5/93 “Drainage Plans subject to Comment by the Environmental Protection Department” and are duly certified by an Authorized Person.

#### **4. Landscape**

Comments of the Chief Town Planner/Urban Design and Landscape, Planning Department (CTP/UD&L, PlanD):

- (a) she has no objection to the applications from the landscape planning perspective;
- (b) the Sites are situated in an area of rural landscape character surrounded by village houses and car parks. No significant landscape resource of high sensibility is observed within the Sites. Significant adverse impact on existing landscape resources arising from the applications is not anticipated; and
- (c) in consideration of the limited space within the Sites, there is insufficient space for meaningful landscaping. Should the Board approve the applications, it is considered not necessary to impose a landscape condition.

#### **5. Drainage**

Comments of the Chief Engineer/Mainland North, Drainage Services Department (CE/MN, DSD):

- (a) he has no objection to the applications from public drainage viewpoint;
- (b) should the applications be approved, a condition should be included to request the applicants to submit and implement a drainage proposal for each of the Sites to ensure that they will not cause adverse drainage impact to the adjacent area; and
- (c) the Sites are in an area where no public sewerage connection is available.

#### **6. Fire Safety**

Comments of the Director of Fire Services (D of FS):

- (a) he has no in-principle objection to the applications; and
- (b) the applicants are reminded to observe ‘New Territories Exempted Houses – A Guide to Fire Safety Requirements’ published by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal applications referred by LandsD.

#### **7. Water Supply**

Comments of the Chief Engineer/Construction, Water Supplies Department (CE/C, WSD):

- (a) he has no objection to the applications; and
- (b) for provision of water supply to the development, the applicants may need to extend the inside services to nearest suitable Government water mains for connection. The applicants should resolve any land matter (such as private lots) associated with the provision of water supply and should be responsible for the construction, operation and maintenance of the inside services within the private lots to WSD’s standards.

## **8. Agriculture**

Comments of the Director of Agriculture, Fisheries and Conservation (DAFC):

- (a) she does not support the applications from the agriculture point of view; and
- (b) the Sites are currently fallow land overgrown with weeds. Agricultural infrastructures such as road access and water sources are available. The Sites can be used for agricultural activities such as open-field cultivation, greenhouses, plant nurseries, etc.. As the Sites possess potential for agricultural rehabilitation, the applications are not supported from agriculture point of view.

## **9. District Officer's Comments**

Comments of the District Officer (North), Home Affairs Department (DO(N), HAD):

he has consulted the locals. The Indigenous Inhabitant Representative (IIR) of Kan Tau Tsuen supports the applications as the Sites are adjacent to the "V" zone, sympathetic consideration should be given. The Chairman of Fanling District Rural Committee indicates no comment on the applications. The Resident Representative (RR) of Kan Tau Tsuen raises concern on drainage aspect.

## **10. Demand and Supply of Small House Site**

According to DLO/N's records, the total number of outstanding Small House applications for Kan Tau Tsuen is 66 while the 10-year Small House demand forecast for the same village is 96. According to the latest estimate by PlanD, about 2.05 ha (equivalent to about 82 Small House sites) of land are available within the "V" zone of Kan Tau Tsuen. There is insufficient land in the "V" zone of Kan Tau Tsuen to meet the future demand of Small Houses (i.e. about 4.05 ha of land which is equivalent to 162 Small House sites).

**Recommended Advisory Clauses**

- (a) to note the comments of CE/C, WSD that for provision of water supply to the development, the applicants may need to extend the inside services to nearest suitable Government water mains for connection. The applicants shall resolve any land matter (such as private lots) associated with the provision of water supply and should be responsible for the construction, operation and maintenance of the inside services within the private lots to WSD's standards;
- (b) to note the comments of D of FS that the applicants should to observe 'New Territories Exempted Houses – A Guide to Fire Safety Requirements' published by LandsD. Detailed fire safety requirements will be formulated upon receipt of formal application referred by LandsD;
- (c) to note the comments of CE/MN, DSD that the Sites are in an area where no public sewerage connection is available;
- (d) to note the advice of DEP that septic tank and soakaway system is an acceptable means for collection, treatment and disposal of the sewage provided that its design and construction follow the requirements of the ProPECC PN 5/93 "Drainage Plans subject to Comment by the Environmental Protection Department" and are duly certified by an Authorized Person; and
- (e) to note that the permission is only given to the development under application. If provision of an access road is required for the proposed developments, the applicants should ensure that such access road (including any necessary filling/excavation of land) complies with the provisions of the relevant statutory plan and obtain planning permission from the Town Planning Board where required before carrying out the road works.
