

**Relevant extract of the Town Planning Board Guidelines for
Application for Open Storage and Port Back-up Uses
(TPB PG-No. 13F)**

1. On 27.3.2020, the Town Planning Board Guidelines for Application for Open Storage and Port Back-up Uses under Section 16 of the Town Planning Ordinance (TPB PG-No. 13F) were promulgated, which set out the following criteria for the various categories of area:
 - (a) Category 1 areas: favourable consideration will normally be given to applications within these areas, subject to no major adverse departmental comments and local objections, or the concerns of the departments and local residents can be addressed through the implementation of approval conditions. Technical assessments should be submitted if the proposed uses may cause significant environmental and traffic concerns;
 - (b) Category 2 areas: planning permission could be granted on a temporary basis up to a maximum period of 3 years, subject to no adverse departmental comments and local objections, or the concerns of the departments and local residents can be addressed through the implementation of approval conditions. Technical assessments, where appropriate, should be submitted to demonstrate that the proposed uses would not have adverse drainage, traffic, visual, landscaping and environmental impacts on the surrounding areas;
 - (c) Category 3 areas: applications would normally not be favourably considered unless the applications are on sites with previous planning approvals (irrespective of whether the application is submitted by the applicant of previous approval or a different applicant). Sympathetic consideration may be given if genuine efforts have been demonstrated in compliance with approval conditions of the previous planning applications and relevant technical assessments/proposals have been included in the fresh applications, if required, to demonstrate that the proposed uses would not generate adverse drainage, traffic, visual, landscaping and environmental impacts on the surrounding areas. Planning permission could be granted on a temporary basis up to a maximum period of 3 years, subject to no adverse departmental comments and local objections, or the concerns of the departments and local residents can be addressed through the implementation of approval conditions; and
 - (d) Category 4 areas: applications would normally be rejected except under exceptional circumstances. For applications on sites with previous planning approvals (irrespective of whether the application is submitted by the applicant of previous approval or a different applicant), and subject to no adverse departmental comments and local objections, sympathetic consideration may be given if genuine efforts have been demonstrated in compliance with approval conditions of the previous planning applications and relevant technical assessments/proposals have been included in the fresh applications, if required, to demonstrate that the proposed uses would not generate adverse drainage, traffic, visual, landscaping and environmental impacts on the surrounding areas. The intention is however to encourage the phasing out of such non-conforming uses as early as possible. A maximum period of 2 years may be allowed upon renewal of planning permission for an applicant to identify suitable sites for relocation. No further renewal of approval will be given unless under very exceptional circumstances and each application for renewal of approval will be assessed on its individual merit.

2. In assessing applications for open storage and port back-up uses, the other major relevant assessment criteria are also summarized as follows:
- (a) the use of sites of less than 1,000 m² each for open storage uses and 2,000 m² each for port back-up uses in rural areas, is generally not encouraged, other than sites located in major corridors, industrial/godown/workshop areas, quarrying activities or where it is demonstrated that optimum use is made of the site. This is to prevent the further proliferation of small sites in rural areas, minimizing sprawl over countryside areas and reducing travel trips;
 - (b) port back-up sites and those types of open storage uses generating adverse noise, air pollution and visual intrusion and frequent heavy vehicle traffic should not be located adjacent to sensitive receivers such as residential dwellings, hospitals, schools and other community facilities;
 - (c) port back-up uses are major generators of traffic, with container trailer/tractor parks generating the highest traffic per unit area. In general, port back-up sites should have good access to the strategic road network, or be accessed by means of purpose built roads;
 - (d) adequate screening of the sites through landscaping and/or fencing should be provided where sites are located adjacent to public roads or are visible from surrounding residential areas;
 - (e) there is a general presumption against conversion of agricultural land and fish ponds to other uses on an ad hoc basis, particularly in flood prone areas or sites which would obstruct natural drainage channels and overland flow; and
 - (f) for applications involving sites with previous planning approvals, should there be no evidence to demonstrate that the applicants have made any genuine effort to comply with the approval conditions of the previous planning applications, planning permission may be refused, or a shorter compliance period for the approval conditions may be imposed, notwithstanding other criteria set out in the Guidelines are complied with.

Rejected Applications

	<u>Application No.</u>	<u>Proposed Use(s)/Development(s)</u>	<u>Date of Consideration (RNTPC)</u>	<u>Rejection Reason</u>
1	A/YL-TYST/922	Temporary Warehouse for Storage of Exhibition Materials, Furniture, Wooden Products, Construction Materials, and Vehicle and Electronic Parts for a Period of 3 Years	2.9.2018	(1)
2	A/YL-TYST/926	Temporary Warehouse for Storage of Construction Materials and Furniture for a Period of 3 Years	7.12.2018	(1)
3	A/YL-TYST/943	Temporary Warehouse for Storage of Construction Materials for a Period of 3 Years	1.2.2019	(1)

Rejection Reason:

- (1) The application involves previously revoked planning permissions due to non-compliance with the approval conditions. Approval of the application with repeated non-compliances would set an undesirable precedent for other similar planning permissions for temporary uses, nullifying statutory planning control.

Good Practice Guidelines for Open Storage Sites

		Internal Access for Fire Appliances	Lot Boundaries (Clear Width)	Distance between Storage Cluster and Temporary Structure	Cluster Size	Storage Height
1.	Open Storage of Containers		2m	4.5m		
2.	Open Storage of Non-Combustibles or Limited Combustibles	4.5m	2m	4.5m		
3.	Open Storage of Combustibles	4.5m	2m	4.5m	40m x 40m	3m

Remarks: Smoking and naked flame activities shall not be allowed within the open storage / recycling site.

Advisory Clauses

- (a) prior planning permission should have been obtained before commencing the applied use at the application site (the Site);
- (b) to resolve any land issues relating to the development with the concerned owner(s) of the Site;
- (c) shorter compliance period is imposed in order to monitor the progress of compliance with approval conditions. Should you fail to comply with any of the approval conditions again resulting in the revocation of planning permission, sympathetic consideration may not be given to any further applications;
- (d) the Site should be kept in a clean and tidy condition at all times;
- (e) to note the comments of the District Lands Officer/Yuen Long, Lands Department that the Site comprises Old Schedule Agricultural Lots held under the Block Government Lease which contains the restriction that no structures are allowed to be erected without the prior approval of the Government. Within the Site, Lots No. 1225, 1238, 1239 and 1252 in D.D. 119 are currently covered by Short Term Waivers (STWs) No. 3266, 3267, 3268 and 3269 respectively to permit structures erected thereon for the purpose of “Warehouse for Storage of Furniture, Construction Materials or Machinery and Household Detergent and Ancillary Use”; and Lots No. 1198 S.C, 1198 S.D, 1198 S.E, 1198 S.G and 1226 in D.D. 119 are covered by STWs No. 4527 and 4528 respectively to permit structures erected thereon for the purpose of “Temporary Open Storage and Warehouse for Storage of Furniture, Exhibition Materials, Construction Materials/Machinery and Household Detergent”. The STW holder(s) will need to apply to her office for modification of the STW conditions where appropriate and the lot owner(s) of the lot(s) without STW will need to apply to her office to permit the structures to be erected or regularise any irregularities on site, if any. Besides, given the proposed use is temporary in nature, only application for regularisation or erection of temporary structure(s) will be considered. Applications for any of the above will be considered by her department acting in the capacity of the landlord or lessor at its sole discretion and there is no guarantee that such application will be approved. If such application is approved, it will be subject to such terms and conditions, including among others the payment of rent or fee, as may be imposed by her department;
- (f) to note the comments of the Commissioner for Transport that the land status of the road/path/track leading to the Site from Kung Um Road shall be checked with the lands authority. The management and maintenance responsibilities of the access road/path/track shall be clarified and consulted with the relevant management and maintenance authorities accordingly. Sufficient space should be provided within the Site for manoeuvring of vehicles. In addition, no parking of vehicles on public road are allowed;
- (g) to note the comments of the Chief Highway Engineer/New Territories West, Highways Department that adequate drainage measures should be provided at the site access to prevent surface water flowing from the Site to the nearby public roads/drains. His department shall not be responsible for the maintenance of any access connecting the Site and Kung Um Road;
- (h) to note the comments of the Director of Environmental Protection that the relevant mitigation measures and requirements in the latest “Code of Practice on Handling the

Environmental Aspects of Temporary Uses and Open Storages Sites” issued by the Environmental Protection Department should be followed to minimise any potential environmental nuisances on the surrounding areas;

- (i) to note the comments of the Director of Fire Services on the submitted fire service installation proposal that discrepancy was noted between the Fire Service installation layout plan and application document for Structure 5. For covered area, the construction of structures (e.g. container converted, tin-sheeted) should be clarified; whether they are designed with 2 sides or 4 sides open should also be clearly stated. Storage configuration inside the proposed warehouses and the relevant restrictions (e.g. maximum storage height, maximum storage areas, etc.) relating to the sprinkler system in accordance with LPC BS EN 12845: 2003 and FSD Circular Letter No. 3/2006 & 3/2012 shall be clearly stated in the F.S. Notes. The aggregate area of openable windows of the compartment exceeding 6.25% of the floor area of that compartment shall be shown to justify the non-provision of static or dynamic smoke extraction system. The good practice guidelines for open storage (**Appendix V** of this RNTPC Paper) should be adhered to. If the proposed structure(s) is required to comply with the Buildings Ordinance (BO) (Cap. 123), detailed fire service requirements will be formulated upon receipt of formal submission of general building plans;
- (j) to note the comments of the Chief Building Surveyor/New Territories West, Buildings Department (BD) that if the existing structures (not being a New Territories Exempted House) are erected on leased land without the approval of the Building Authority (BA), they are unauthorised building works (UBW) under the BO and should not be designated for any proposed use under the application. For UBW erected on leased land, enforcement action may be taken by BD to effect their removal in accordance with the prevailing enforcement policy against UBW as and when necessary. The granting of any planning approval should not be construed as an acceptance of any existing building works or UBW on the Site under the BO. Before any new building works (including containers/open sheds as temporary buildings, demolition and land filling, etc.) are to be carried out on the Site, prior approval and consent of the BA should be obtained, otherwise they are UBW. An Authorised Person should be appointed as the co-ordinator for the proposed building works in accordance with the BO. The Site shall be provided with means of obtaining access thereto from a street and emergency vehicular access in accordance with Regulations 5 and 41D of the Building (Planning) Regulations (B(P)R) respectively. The Site does not abut on a specified street of not less than 4.5m wide and its permitted development intensity shall be determined under Regulation 19(3) of the B(P)R at the building plan submission stage; and
- (k) to note the comments of the Project Manager (West), Civil Engineering and Development Department that based on the preliminary project boundary of the proposed Yuen Long South (YLS) Development, the Site falls within the boundary of the proposed YLS Development – Stage 3. The YLS Development would provide land to meet the medium to long term housing needs of Hong Kong and the detailed implementation programme with phasing and packaging of works for YLS Development – Stage 3 is being formulated.
