Rejected Application

	<u>Application No.</u>	<u>Proposed Use(s)/Development(s)</u>	<u>Date of Consideration (RNTPC/TPB)</u>	<u>Rejection Reason(s)</u>
1	A/YL-TYST/478	Temporary warehouse for storage of packed furniture for a period of 3 years	22.10.2010 on review	(1), (2), (3), (4)

Rejection Reason(s):

- (1) No/insufficient information in the submission to demonstrate that the development would not generate adverse environmental impact.
- (2) No/insufficient information in the submission to demonstrate that the development would not generate adverse drainage impact.
- (3) No/insufficient information in the submission to demonstrate that the development would not generate fire safety impact.

- (4) The application involves previously revoked planning permissions due to non-compliance with the approval conditions. Approval of the application with repeated non-compliances would set an undesirable precedent for other similar planning permissions for temporary uses, nullifying statutory planning control.

Detailed Departmental Comments

**Comments of the Chief Engineer/Mainland North, Drainage Services
Department:**

He has the following comments on the submitted drainage proposal:

- (a) The invert levels of the proposed catchpits should be shown on the drainage plan for reference.
- (b) The existing drainage facilities, to which the stormwater of the development from the Site would discharge, should be indicated on plan. The relevant connection details should be provided for comment.
- (c) The location and details of the proposed hoarding/peripheral wall should be shown on the proposed drainage plan.
- (d) Standard details should be provided to indicate the sectional details of the proposed u-channel and the catchpit.
- (e) Sand trap of provision alike should be provided before the collected runoff is discharged to the public drainage facilities.

Advisory clauses

- (a) to resolve any land issues relating to the development with the concerned owner(s) of the Site;
- (b) to note the comments of the District Lands Officer/Yuen Long, Lands Department (DLO/YL, LandsD) that the application site (“the Site”) consists of Old Schedule Agricultural Lots held under Block Government Lease which contains the restriction that no structures are allowed to be erected without the prior approval of the Government. The Site is accessible to Kung Um Road via Government land (GL) and private land. Her office does not provide maintenance work for GL involved and does not guarantee any right-of-way. The lot owner(s) will need to apply to her office to permit the structures to be erected or regularize any irregularities on site. Such application(s) will be considered by her department acting in the capacity as the landlord or lessor at its sole discretion and there is no guarantee that such application(s) will be approved. If such application(s) is approved, it will be subject to such terms and conditions, including among others the payment of premium or fee, as may be imposed by her department.
- (c) to note the comments of the Commissioner for Transport that the land status of the access road/path/track leading to the Site from Kung Um Road shall be checked with the lands authority. The management and maintenance responsibilities of the access road/path/track shall be clarified and consulted with the relevant management and maintenance authorities accordingly. The applicant is reminded that sufficient space should be provided within the Site for manoeuvring of vehicles. In addition, no parking, queuing and reverse movement of vehicles on public road are allowed;
- (d) to note the comments of the Chief Highway Engineer/New Territories West, Highways Department that his department shall not be responsible for the maintenance of any access connecting the Site and Kung Um Road. Also, adequate drainage measures should be provided at the site access to prevent surface water flowing from the Site to nearby public roads/drains;
- (e) to follow the relevant mitigation measures and requirements in the latest “Code of Practice on Handling the Environmental Aspects of Temporary Uses and Open Storage Sites” issued by the Environmental Protection Department;
- (f) to note the comments of the Chief Engineer/Mainland North, Drainage Services Department that he has the following comments on the submitted drainage proposal: The invert levels of the proposed catchpits should be shown on the drainage plan for reference. The existing drainage facilities, to which the stormwater of the development from the Site would discharge, should be indicated on plan. The relevant connection details should be provided for comment. The applicant should check and ensure the hydraulic capacity of the existing drainage facilities would not be adversely affected by the development. The location and details of the proposed hoarding/peripheral wall should be shown on the proposed drainage plan. Standard details should be provided to indicate the sectional details of the proposed u-channel and the catchpit. Sand trap of provision alike should be provided before the collected runoff is discharged to the public drainage facilities. The development should neither obstruct overland flow nor adversely affect existing natural streams, village drains, ditches and the adjacent areas, etc. The applicant should consult DLO/YL, LandsD and seek consent from the relevant owners for any drainage works to be carried out outside his lot boundary before commencement of the drainage works;

- (g) to note the comments of the Director of Fire Services that in consideration of the design/nature of the proposal, FSIs are anticipated to be required. Therefore, the applicant is advised to submit relevant layout plans incorporated with the proposed FSIs to his department for approval. The layout plans should be drawn to scale and depicted with dimensions and nature of occupancy and the location of where the proposed FSIs to be installed should also be clearly marked on the layout plans. The applicant is also reminded that if the proposed structure(s) is required to comply with the Buildings Ordinance (BO) (Cap. 123), detailed fire service requirements will be formulated upon receipt of formal submission of general building plans;
- (h) to note the comments of the Chief Building Surveyor/New Territories West, Buildings Department (BD) that if the existing structures (not being a New Territories Exempted House) are erected on leased land without the approval of the BD, they are unauthorized building works (UBW) under the BO and should not be designated for any proposed use under the application. For UBW erected on leased land, enforcement action may be taken by the BD to effect their removal in accordance with BD's enforcement policy against UBW as and when necessary. The granting of any planning approval should not be construed as an acceptance of any existing building works or UBW on the Site under the BO. Before any new building works (including containers/open sheds as temporary buildings and land filling) are to be carried out on Site, prior approval and consent of the BD should be obtained, otherwise they are UBW. An Authorized Person should be appointed as the co-ordinator for the proposed building works in accordance with the BO. The Site shall be provided with means of obtaining access thereto from a street and emergency vehicular access in accordance with Regulations 5 and 41D of the Building (Planning) Regulations (B(P)R) respectively. If the Site does not abut on a specified street of not less than 4.5m wide, its permitted development intensity shall be determined under Regulation 19(3) of B(P)R at the building plan submission stage; and
- (i) to note the comments of the Director of Electrical and Mechanical Services that in the interests of public safety and ensuring the continuity of electricity supply, the parties concerned with planning, designing, organizing and supervising any activity near the underground cable or overhead line under the application should approach the electricity supplier (i.e. CLP Power) for the requisition of cable plans (and overhead line alignment drawings, where applicable) to find out whether there is any underground cable and/or overhead line within and/or in the vicinity of the Site. They should also be reminded to observe the Electricity Supply Lines (Protection) Regulation and the "Code of Practice on Working near Electricity Supply Lines" established under the Regulation when carrying out works in the vicinity of the electricity supply lines.
