**Advisory clauses**

- (a) to resolve any land issues relating to the development with the concerned owner(s) of the application site (“the Site”);
- (b) the Site should be kept in a clean and tidy condition at all times;
- (c) to note the District Lands Officer/Yuen Long, Lands Department (DLO/YL, LandsD)’s comments that the Site comprises Old Schedule Agricultural Lots held under the Block Government Lease which contains the restriction that no structures are allowed to be erected without the prior approval of the Government. (b) The Site is accessible to Kung Um Road via Government land (GL) and private land. Her Office does not provide maintenance work for GL involved and does not guarantee any right-of-way to the Site. The lot owner(s) will need to apply to her Office to permit the structures to be erected or regularize any irregularities on site, if any. Besides, given the proposed use is temporary in nature, only application for regularization or erection of temporary structure(s) will be considered. No construction of New Territories Exempted Building(s) will be considered or allowed. Applications for any of the above will be considered by her Department acting in the capacity of the landlord or lessor at its sole discretion and there is no guarantee that such application will be approved. If such application(s) is approved, it will be subject to such terms and conditions, including among others the payment of premium or fee, as may be imposed by her Department;
- (d) to note the Commissioner for Transport’s comments that the land status of the access road/path/track leading to the Site from Kung Um Road shall be checked with the lands authority. The management and maintenance responsibilities of the access road/path/track shall be clarified with the relevant management and maintenance authorities accordingly. The applicant is reminded that sufficient space within the Site should be provided for manoeuvring of vehicles. In addition, no parking, queuing and reverse movement of vehicles on public road are allowed;
- (e) to note the comments of the Chief Highway Engineer/New Territories West, Highways Department that his office shall not be responsible for the maintenance of any access connecting the Site and Kung Um Road. Also, adequate drainage measures should be provided to prevent surface water flowing from the site to the nearby public road/drains;
- (f) to note the Chief Engineer/Mainland North, Drainage Services Department’s comments that the applicant should implement the drainage facilities on site in accordance with the agreed drainage proposal. The applicant is required to rectify the drainage system if they are found to be inadequate or ineffective during operation. The applicant shall also be liable for and shall indemnify claims and demands arising out of damage or nuisance caused by failure of the drainage system. The proposed development would neither obstruct overland flow nor adversely affect any existing natural streams, village drains, ditches and the adjacent areas. The application should consult DLO/YL and seek consent from relevant lot owners for any works to be carried out outside his lot boundary before commencement of the drainage works;
- (g) to note the Director of Fire Services’ comments that in consideration of the design/nature of the proposal, fire service installations (FSIs) are anticipated to be required. The applicant is advised to submit relevant layout plans incorporated with the proposed FSIs to his Department for approval. The layout plans should be drawn to scale and depicted with dimensions and nature of occupancy and the location of where the proposed FSIs to be

installed should also be clearly marked on the layout plans. The applicant is also reminded that if the proposed structure(s) is required to comply with Buildings Ordinance (BO) (Cap. 123), detailed fire service requirements will be formulated upon receipt of formal submission of general building plans; and

- (h) to note the Chief Building Surveyor/New Territories West, Buildings Department (BD)'s comments that before any new building works (including containers/open sheds as temporary buildings and land filling) are to be carried out on the Site, prior approval and consent of his department should be obtained, otherwise they are unauthorized building works (UBW) under the BO. An Authorized Person (AP) should be appointed as the co-ordinator for the proposed building works in accordance with the BO. For UBW erected on leased land, enforcement action may be taken by his Department to effect their removal in accordance with his Department's enforcement policy against UBW as and when necessary. The granting of any planning approval should not be construed as an acceptance of any existing building works or UBW on the Site under the BO. The Site shall be provided with means of obtaining access thereto from a street and emergency vehicular access in accordance with Regulations 5 and 41D of the Building (Planning) Regulations respectively. If the Site does not abut on a specified street of not less than 4.5m wide, its permitted development intensity shall be determined under Regulation 19(3) of the Building (Planning) Regulation at the building plan submission stage.
