Advisory clauses

- (a) prior planning permission should have been obtained before commencing the applied use at the application site (the Site);
- (b) to resolve any land issues relating to the development with the concerned owner(s) of the Site;
- (c) to note the comments of the District Lands Officer/Yuen Long, Lands Department that the Site comprises Old Schedule Agricultural Lots held under the Block Government Lease which contains the restriction that no structures are allowed to be erected without the prior approval of the Government. Within the Site, Lot 1415 RP in D.D. 119 is currently covered by Short Term Waiver (STW) No. 4592 which permits structure(s) erected thereon for the purpose of 'Temporary Warehouse for Storage of Brand New Electronic Goods'. Lot 1416 RP and the Government Land (GL) in D.D. 119 are covered by STW No. 3635 and Short Term Tenancy (STT) No. 2641 respectively, which permit structure(s) erected thereon for the purpose of 'Open Storage of Metal Ware and Plastic Goods including Containers and Road Signs'. The Site is accessible from Shan Ha Road via GL and private land. Her office provides no maintenance works for the GL involved and does not guarantee any right-of-way over the GL to the Site. The STW/STT holder(s) will need to apply to her office for modification of the STW/STT conditions if there is any irregularities on site and the lot owner(s) of the lot(s) without STW will need to apply to her office to permit the structures to be erected or regularise any irregularities on site. No construction of New Territories Exempted Building(s) will be considered or allowed. Applications for any of the above will be considered by her department acting in the capacity of the landlord or lessor at its sole discretion and there is no guarantee that such application will be approved. If such application is approved, it will be subject to such terms and conditions, including among others the payment of premium or fee, as may be imposed by her department;
- (d) to note the comments of the Commissioner for Transport that the land status of the access road/path/track leading to the Site from Shan Ha Road should be checked with the lands authority. The management and maintenance responsibilities of the access road/path/track should be clarified and consulted with the relevant management and maintenance authorities accordingly. Sufficient space should be provided within the Site for manoeuvring of vehicles;
- (e) to note the comments of the Chief Highway Engineer/New Territories West, Highways Department that adequate drainage measures should be provided at the site access to prevent surface water flowing from the Site to nearby public roads/drains. His department shall not be responsible for the maintenance of any access connecting the Site and Shan Ha Road;
- (f) to note the comments of the Director of Environmental Protection that the applicant should follow the relevant mitigation measures and requirements in the latest "Code of Practice on Handling the Environmental Aspects of Temporary Uses and Open Storage Sites" issued by the Environmental Protection Department to minimise any potential environmental nuisances;
- (g) to note the comments of the Director of Fire Services that in consideration of the design/nature of the proposal, fire service installations (FSIs) are anticipated to be required. The applicant is advised to submit relevant layout plans incorporated with the proposed FSIs to his department for approval. The layout plans should be drawn to scale and depicted with dimensions and nature of occupancy. The location of where the proposed FSIs to be installed should also be clearly marked on the layout plans. The applicant is also reminded that if the proposed structure(s) is required to comply with the Buildings Ordinance (BO) (Cap. 123), detailed fire service requirements will be formulated upon receipt of formal submission of general building plans;

- (h) to note the comments of the Chief Building Surveyor/New Territories West, Buildings Department (BD) that if the existing structures (not being a New Territories Exempted House) are erected on leased land without approval of the BD, they are unauthorised building works (UBW) under the BO and should not be designated for any proposed use under the application. For UBW erected on leased land, enforcement action may be taken by the BD to effect their removal in accordance with BD's enforcement policy against UBW as and when necessary. The granting of any planning approval should not be construed as an acceptance of any existing building works or UBW on the Site under the BO. Before any new building works (including containers/open sheds as temporary buildings, demolition and land filling) are to be carried out on the Site, prior approval and consent of the BD should be obtained, otherwise they are UBW. An Authorised Person should be appointed as the co-ordinator for the proposed building works in accordance with BO. The Site shall be provided with means of obtaining access thereto from a street and emergency vehicular access in accordance with Regulations 5 and 41D of the Building (Planning) Regulations (B(P)R) respectively. If the Site does not abut on a specified street of not less than 4.5m wide, its permitted development intensity shall be determined under Regulation 19(3) of the B(P)R at the building plan submission stage;
- (i) to note the comments of the Director of Electrical and Mechanical Services that in the interests of public safety and ensuring the continuity of electricity supply, the parties concerned with planning, designing, organising and supervising any activity near the underground cable or overhead line under the application should approach the electricity supplier (i.e. CLP Power) for the requisition of cable plans (and overhead line alignment drawings, where applicable) to find out whether there is any underground cable and/or overhead line within and/or in the vicinity of the Site. The parties concerned should also be reminded to observe the Electricity Supply Lines (Protection) Regulation and the "Code of Practice on Working near Electricity Supply Lines" established under the Regulation when carrying out works in the vicinity of the electricity supply lines; and
- (j) to note the comments of the Project Manager (West), Civil Engineering and Development Department that the Site falls within the boundary of the proposed Yuen Long South (YLS) Development – Stage 2. The YLS Development would provide land to meet the medium to long term housing needs of Hong Kong. The applicant should be reminded that extension of the planning permission may not be supported in future when the detailed implementation programme of works in the Site under YLS Development – Stage 2 is formulated.
