It is noted that the GFA figures of the Water Consumption Estimation in Annex G (Supplementary Information on Water Supply Impact) of the planning statement is different from the development parameters under the current application No. A/H7/185. Please clarify.	Please refer to the corresponding calculation sheet in revised <b>Annex G</b> under this FI4 submission where the GIC GFA figures of the Water Consumption Estimation has been revised to 3100m <sup>2</sup> , to be consistent with the development parameters as stated in the Planning Statement.
