Subject: RE: Further Information 2: A/K18/348 - Proposed Minor Relaxation of Building Height Restriction for Hospital Redevelopment at Blocks A, B and C of Hong Kong Baptist Hospital
Attachment: HKBH_Planning Statement_20240606_16_17.pdf;
20240606_HKBH_VIA_6_7.pdf

Dear Jenny,

Thank you for your email. Please find our clarification as follows:

- (i) The number of private car parking spaces should be 244 (i.e. no change from the formal submission);
- (ii) The floor-to-floor height should be about 4.2 to 6m.

To reflect on our clarification, please find the attached revised pages on the SPS and VIA on the development parameters table for your perusal.

Thank you.

Regards,
Catherine Kwong

Importance: High

Dear Wai,

As discussed yesterday,

- (i) please advise the correct number of car parking spaces for our processing of your further information submission;

Urgent Return receipt Expand Group Restricted Prevent Copy Confidential

(ii) while it is stated in the SPS that the floor-to-floor height is about 4.5 to 6m, it is noted from the section plan that the floor-to-floor height should be about 4.2 to 6m. Please clarify.

Your urgent reply by **this morning** is appreciated, please.

Thanks and Regards,

Jenny LAI
