**Subject:** Re: Application No. A/NE-LT/772

Dear sir,

I refer to subjected application and response to Water supplies Department (WSD)'s comment, the applicant advise that:

- 1) No use and storage of pesticides, toxicants, flammable solvents, laticidal oil, rodenticide, tar and petroleum oil will be used at the outside seating area;
- 2) Will make a signage notice for alerting not pollute WGG at prominent position.

Should you have further information, please feel free to contact undersign

Regards,

Ms.Lau
