

Response to Comments from Environment and Ecology Bureau

1. The actual generation capacity of the proposed installation will be 170kW.

Response to Comments from Transport Department

1. As the subject site is of relatively small scale, and hence, neither heavy vehicle nor plant would be involved in the construction, maintenance or repairing the proposed solar photovoltaic system, and thus poses insignificant impact to traffic.

Response to Comments from Landscape Unit, Urban Design & Landscape Section of Planning Department

1. The proposed temporary use will not alter the landscape character of the area, especially when viewing its vicinity with the existence of an approved open car park.

Response to Comments from Agriculture, Fisheries and Conservation Department

1. The proposed Solar Photovoltaic System is NOT a stand-alone development, but simultaneously conducting the cultivation of *Dendrobium nobile* beneath the system.
2. *Dendrobium nobile* (*Dendrobium*) is a valuable Chinese herbal medicine for primarily relieving inflammation causing husky voice and sore throat, etc., thus, having considerable agricultural value. Its main features and benefits are tabulated below for your easy reference:

Main Features and Benefits of *Dendrobium* (Shihu)

Functions

1. Nourishes Yin and Body Fluids

Dendrobium is renowned for its ability to replenish bodily fluids and nourish yin. It is often used to relieve symptoms like dry mouth, sore throat, and dehydration after illnesses.

2. Promotes Stomach Health and Aids Digestion

It helps with stomach yin deficiency, alleviating issues such as poor appetite, stomach pain, and vomiting. It also supports digestion and improves overall stomach function.

3. Strengthens Tendons and Bones

Rich in active compounds, *Dendrobium* is believed to promote bone health and is commonly used to reduce symptoms like weakness, fatigue, and joint pain, especially in older adults.

4. Anti-Aging and Immune Modulation

Dendrobium contains polysaccharides, amino acids, and trace elements

that enhance immunity and have antioxidant properties, which may help slow down the aging process.

5. Clears Heat and Detoxifies

In traditional Chinese medicine, Dendrobium is considered effective for clearing internal heat and reducing excessive body heat or inflammation.
