<p><b>Comments from Drainage Services Department</b></p> <p>1. For the stream along the northern boundary of the site, it seems that the cross-section shown in Figure 5 is different from the actual condition as shown in the photos. Please provide a realistic cross-section with invert level and bank levels.</p>	<p>Attached please find revised Page 8 of the drainage proposal with the revised Figure 5. Please also find the revised Figure 5, cross-section with invert level and bank levels, below for ease of reference.</p>
