

Brief site plan - Filling and excavation

Location: as indicated on "Description of the existing electricity supply network and exact location from CLP"

Site floor plan (top view)

Site sectional plan with reference to ground level

Notes:

1. Unit: mm (millimeters)
2. Site area:
Length: 2300 Width: 1150
3. Height of the meter box: 2800 in total, with the bottom 600 below ground level inside the concrete filling according to the CLP sketch of the meter box
4. The meter box is designed to be elevated for 1 meter, hence the depth of the concrete filling
