Dear Jackin,

1. Reply to the Environmental Protection Department : We have checked the document provided by landlords and have a site visit. According to the landlord information, they haven't connected the pool drainage to storm drain for a long long time as there is no disposal of wastewater from the pool. The landlords no longer use the pool for swimming now. Mostly the pool is a landscape. Disposable cartridge filter is being used to keep the water clean. But no backwash process needed. Therefore there is no foul water discharge.
2. Reply to Lands Department : If the application is successful, we will apply the STW form Lands Department.
3. Please find attached the S16-III p.3 & p.10.
- 4) Please find attached the Survey Plan .

Please you have further concern of the above matter, please call me at [REDACTED] or email me at [REDACTED].

Thank you for your attention.

Regards
Betty Yau
