主旨: Re: [s.16] Planning Application (A/SK-TMT/83)
類別: Internet Email

Dear Mr. CHIU,

Thank you for your recent telephone calls and email ytd.

Please be informed that there will be no land filling or excavation at the subject site with the applied use as a temporary garden.

For your information, applicant will grow movable pot-plants and place some light sitting furniture in the proposed garden.

As to the concrete slab immediately in front of the house it was built before the applicant moved in, and it was a feature that existed all along the houses in the same row believed to be paved by the developer. As such, no corresponding land filling plan would be included in the planning application.

Thank you for your attention and assistance in this case.

YEUNG Siu Fung
