Comments from the Director of Environmental	
Protection (Contact Person: Mr. William WONG)	
Apart from our previous comments on the Noise Impact Assessment requesting the applicant/consultant to provide the relevant road traffic noise model files and the calculation spreadsheet(s), please find our comments below from the air quality perspective. For ease of our review, the applicant/consultant is requested to highlight the changes/amendments in the coming revision(s).	
Air Quality Impact Assessment	
 (a) Table 2.1 – (i) The separation distances of ASR04 and ASR05 are different from those shown in Figure 2.1. Please rectify the discrepancies. (ii) ASR06 and ASR07 should be located to the south and to the southeast of the project site respectively. Please check and revise. Similar amendment should be applied to the table in Figure 2.1. 	 (i) Noted. The separation distances of ASR04 and ASR05 shown in Table 2.1 have been revised. (ii) Noted. The location of ASR06 and ASR07 have been revised.
 (b) Section 2.2 and R-to-C #c(i) and c(ii) – (i) Please incorporate R-to-C #c(i) and c(ii) in the section. (ii) Please clarify the scale of development (e.g. project/consultation site area etc.) at the "Residential (Group A) 6" ("R(A)6") site and show its project site boundary in Figure 2.1. (iii) Apart from development at the "R(A)6" site, please clarify if there are any other projects within 500m from the project site boundary and their cumulative impacts (if any) should be addressed in this section. 	 (i) Noted. Please refer to S.2.2.1 to S.2.2.6. (ii) Noted. Please refer to S.2.2.1 to S.2.2.6. (iii) Noted. Please refer to S.2.2.1 to S.2.2.6.
(c) Section 2.3.6 – Please revise "trip" in line 3 to "strip".	Noted.
(d) Section 2.3.7 –	
(i) The 2^{nd} sentence is incorrect since part of the	(i) Noted. The Sentence has been deleted.

 (ii) It is confirmed with TD the Tai Shu Road East. Please revise of delete it. (iii) Please state clearly if Tai Shu Road East shall be considered as feeder road and provide its source of reference. (iii) It is noted that Transport Department (TD) was consulted for the road type of Tai Tong Road are not provided in TD's endorsement. Please obtain TD's agreement to confirm Tai Tong Road could be considered as a LD or provide the peak traffic. Otherwise, please consider Tai Tong Road as DD and allow a 10m buffer as a conservative approach. (e) Section 2.4.3 – Please revise "active recreational uses" in line 2 to "recreational and operational air quality" in line 1. (ii) Figure 2.1 – (iii) Figure 2.1 – 				
delete it. (ii) Please state clearly if Tai Shu Road East shall be considered as feeder road and provide its source of reference. (iii) It is noted that Transport Department (TD) was consulted for the road type of Tai Tong Road are not provided in TD's endorsement. Please obtain TD's agreement to confirm Tai Tong Road could be considered as LD or provide the peak traffic flow of Tai Tong Road to justify it can be considered as LD or provide the peak traffic flow of Tai Tong Road to justify it can be considered as LD with low traffic. Otherwise, please consider Tai Tong Road as DD and allow a 10m buffer as a conservative approach. Noted. (e) Section 2.4.3 – Please revise "active recreational uses" in line 2 to "recreational uses in open space". Noted. (f) Section 3.1.4 – Please revise "dust" to "air quality" in line 1. Noted. (g) Section 3.1.6 – The duplicated "fresh air intake" in line 2 shall be removed. Noted. (i) Figures 2.1 and 2.2 – Please show the project site boundary in the map with blue colour. Noted. Please refer to Fig 2.2 and 2.3			project site is located within the buffer zone	(ii) It is confirmed with TD the Tai Shu
 (ii) Please state clearly if Tai Shu Road East shall be considered as feeder road and provide its source of reference. (iii) It is noted that Transport Department (TD) was consulted for the road types of surrounding roads but the road type of Tai Tong Road are not provided in TD's endorsement. Please obtain TD's agreement to confirm Tai Tong Road could be considered as LD or provide the peak traffic flow of Tai Tong Road to justify it can be considered as a LD with low traffic. Otherwise, please consider Tai Tong Road as DD and allow a 10m buffer as a conservative approach. (e) Section 2.4.3 – Please revise "active recreational uses" in line 2 to "recreational and operational air quality impacts are reviewed in this qualitative assessment study". (g) Section 3.1.4 – Please review "dust" to "air quality" in line 1. (h) Section 3.1.6 – The duplicated "fresh air intake" in line 2 shall be removed. (ii) Figures 2.1 and 2.2 – Please show the project site boundary in the map with blue colour. 				Road East would be considered as feeder
 be considered as feeder road and provide its source of reference. (iii) It is noted that Transport Department (TD) was consulted for the road types of surrounding roads but the road type of Tai Tong Road are not provided in TD's greenent to confirm Tai Tong Road could be considered as LD or provide the peak traffic. Otherwise, please consider Tai Tong Road as DD and allow a 10m buffer as a conservative approach. (e) Section 2.4.3 – Please revise "active recreational uses" in line 2 to "recreational air open space". (f) Section 3.1.4 – Please review "dust" to "air quality" in line 1. (g) Section 3.1.6 – The duplicated "fresh air intake" in line 2 shall be removed. (i) Figures 2.1 and 2.2 – Please show the project site boundary in the map with blue colour. 				road; the confirmation letter please refer to
source of reference. (iii) It is noted that Transport Department (TD) was consulted for the road type of a surrounding roads but the road type of Tai Tong Road are not provided in TD's endorsement. Please obtain TD's agreement to confirm Tai Tong Road could be considered as LD or provide the peak traffic. flow of Tai Tong Road to justify it can be considered as a LD with low traffic. Otherwise, please consider Tai Tong Road as DD and allow a 10m buffer as a conservative approach. Noted. (e) Section 2.4.3 – Please revise "active recreational uses" in line 2 to "recreational uses in open space". Noted. (f) Section 3.1.4 – Please revise "dust" to "air quality" in line 1. Noted. (g) Section 3.1.4 – Please review "dust" to "air quality" in line 1. Noted. (h) Section 3.1.2 – Please show the project site boundary in the map with blue colour. Noted. Please refer to Fig 2.2 and 2.3		(ii)	·	App 2.2. Detailed discuses please refer to
 (iii) It is noted that Transport Department (TD) was consulted for the road types of surrounding roads but the road type of Tai Tong Road are not provided in TD's endorsement. Please obtain TD's agreement to confirm Tai Tong Road could be considered as LD or provide the peak traffic flow of Tai Tong Road to justify it can be considered as a LD with low traffic. Otherwise, please consider Tai Tong Road as DD and allow a 10m buffer as a conservative approach. (e) Section 3.1.3 – Please revise "active recreational uses" in line 2 to "recreational uses in open space". (f) Section 3.1.4 – Please review "dust" to "air quality" in line 1. (g) Section 3.1.6 – The duplicated "fresh air intake" in line 2 shall be removed. (h) Section 3.1.6 – The duplicated "fresh air intake" in line 2.1 and 2.2 – Please show the project site boundary in the map with blue colour. 			-	S.2.3.7 to 2.3.8
(e) Section 2.4.3 – Please revise "active recreational uses in open space". Noted. (f) Section 3.1.3 – Suggest to revise the whole section to "Both constructional and operational air quality impacts are reviewed in this qualitative assessment study". Noted. (g) Section 3.1.4 – Please review "dust" to "air quality" in line 1. Noted. (h) Section 3.1.6 – The duplicated "fresh air intake" in line 2 shall be removed. Noted. (i) Figures 2.1 and 2.2 – Please show the project site boundary in the map with blue colour. Noted. Please refer to Fig 2.2 and 2.3		(iii)	It is noted that Transport Department (TD) was consulted for the road types of surrounding roads but the road type of Tai Tong Road are not provided in TD's endorsement. Please obtain TD's agreement to confirm Tai Tong Road could be considered as LD or provide the peak traffic flow of Tai Tong Road to justify it can be considered as a LD with low traffic. Otherwise, please consider Tai Tong Road as DD and allow a 10m buffer as a conservative	would be supplemented if available (letter has been sent to TD for confirmation on 24 April). However, the information does not affect the results of the AQIA since there is no domestic use within 10m buffer distance from the kerbside of Tai Tong Road to the
